

## REPAIR INSTRUCTION

This document is intended to as an instruction to repair or modify a product. Any work should be carried out by a competent individual, adhering to health and safety guidelines and wearing the correct PPE.

### BCA AWNING LIGHT WIRING HANDING CHANGE

Parts affected: 2010123, 1091404, 6214554, 2010122

The BCA awning light fitted over the main habitation door has a L/H and R/H version.

This indicates which side the wiring exits the awning light, and matches up to a hols on the side of the van.

These however can be swapped over from L/H to R/H by following these steps:

1. Remove white plastic top cover

2. Unclip clear plastic lens

3. Remove rubber LED strip from clear plastic lens

4. Pull wiring through the hole in the plastic moulding

5. Reverse the direction the light and wiring

6. Push wiring through the hole at the opposite end of the plastic moulding

7. Refit rubber LED strip to clear plastic lens

8. Refit clear plastic lens

9. Refit white plastic top cover
