A & E BUMPER BACKPLATE DECALS

The models below have the bumpers fixed using two screws through the bumper, which are hidden behind the “A” & “E” of BAILEY. To enable the BAILEY decal to fit securely, a “backplate” decal is added over the “A” & the “E” recesses (1132757)

A chrome BAILEY decal (1132762) is then placed over the top of these.

The following models and parts use this arrangement:
